VINYLBOND[®]
DECORATIVE PANEL SYSTEMS

Pleasant and practical

A new era in exterior and interior facades with VINYLBOND™ Decorative Panels developed based on the vast R&D and production experience in building materials...

VINYLBOND™ Decorative Panel Systems are designed for use in both interior and exterior spaces.

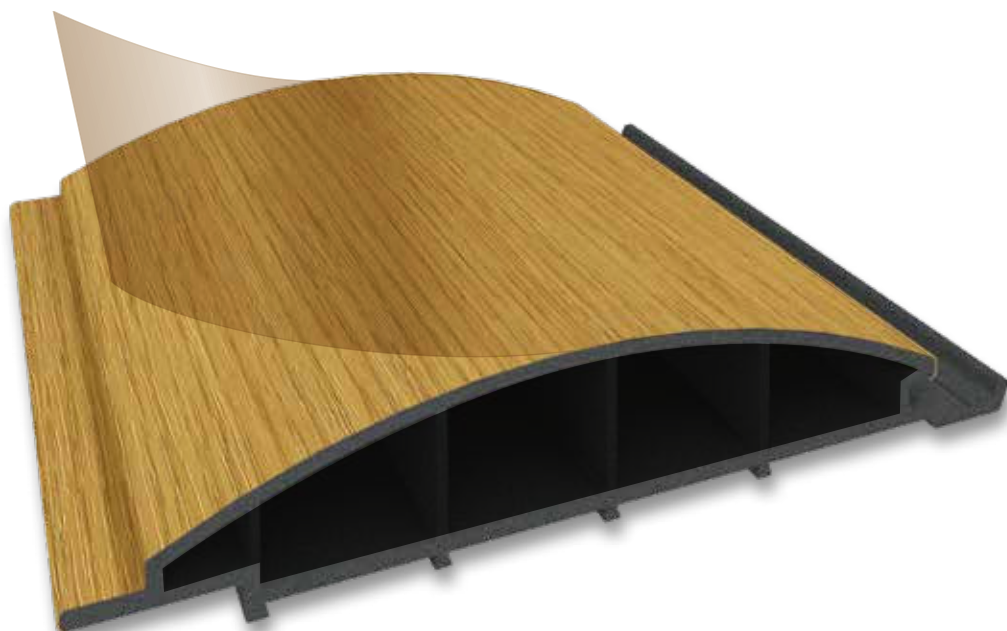

With VINYLBOND™, you can design stylish ceilings, pleasant walls and eye-catching facades that are quite easy to apply and maintain, without making concessions on your comfort and style.

EXTERIOR & INTERIOR

Durable and high quality

The new generation facade, ceiling and wall decorative panel system VINYL BOND™ is extremely resistant to water, surface abrasions, impacts and harmful sun rays. The surfaces of the panels are covered with a high-tech decorative film layer.

A modern building with wood-grain vinyl panels and palm tree shadows. The building features large windows and balconies with glass railings. The wood-grain panels are used for exterior cladding and balcony railings. The scene is set in a courtyard with a large palm tree in the foreground and shadows cast on the building's facade.

As compared to other
surface coating materials,
VINYLBOND™ products
are **4 TIMES FASTER TO APPLY**
thanks to their **5 TIMES MORE DURABLE**
simple and easy application method.

SUSTAINABILITY FOCUSED

Advanced technology, high quality results...

VINYLBOND is specifically designed for both interior and exterior use with its advanced water-resistant technology, antibacterial and non-flammability characteristics. It offers comfortable and durable surfaces in all working and living areas from homes to offices, gyms, airports, schools, cultural centers, hospitals to all commercial areas.

VINYLBOND®
DECORATIVE PANEL SYSTEMS

EXTERIOR & INTERIOR

RIBBON

EXTERIOR & INTERIOR

LINEAR • 150 x 26 MM

RIBBON • Interior Magic Sahara

RIBBON offers a special texture that adds depth and meaning to surfaces. With the meaningful color options specifically designed for modern and pleasant spaces; it also allows for magnificent plays of light on all surfaces in both interior and exterior spaces, on the walls or ceilings where it is applied.

VINYLBOND®
DECORATIVE PANEL SYSTEMS

FINE

EXTERIOR & INTERIOR

LINEAR • 125 x 26 MM

FINE • Interior Magic Vison

FINE is the first choice of those who love elegant textures... An alternative that captivates all surfaces with its robust structure, elegant size and pleasant depth.

FINE, which has the thinnest intermittent surface coating design option, is particularly ideal for adding elegance to surfaces.

VINYLBOND®
DECORATIVE PANEL SYSTEMS

MAXI

EXTERIOR & INTERIOR

LINEAR • 165 x 18 MM

MAXI • Interior White

MAXI offers more planar surface with its large surface area and narrow gaps. Thanks to its attractive color options, it allows for compact and symmetrical textured design on all interior and exterior surfaces.

With the special film coating on the panels produced for exterior applications, 10-year vivid color guarantee is also provided on the surfaces in the areas that are continuously exposed to sunlight.

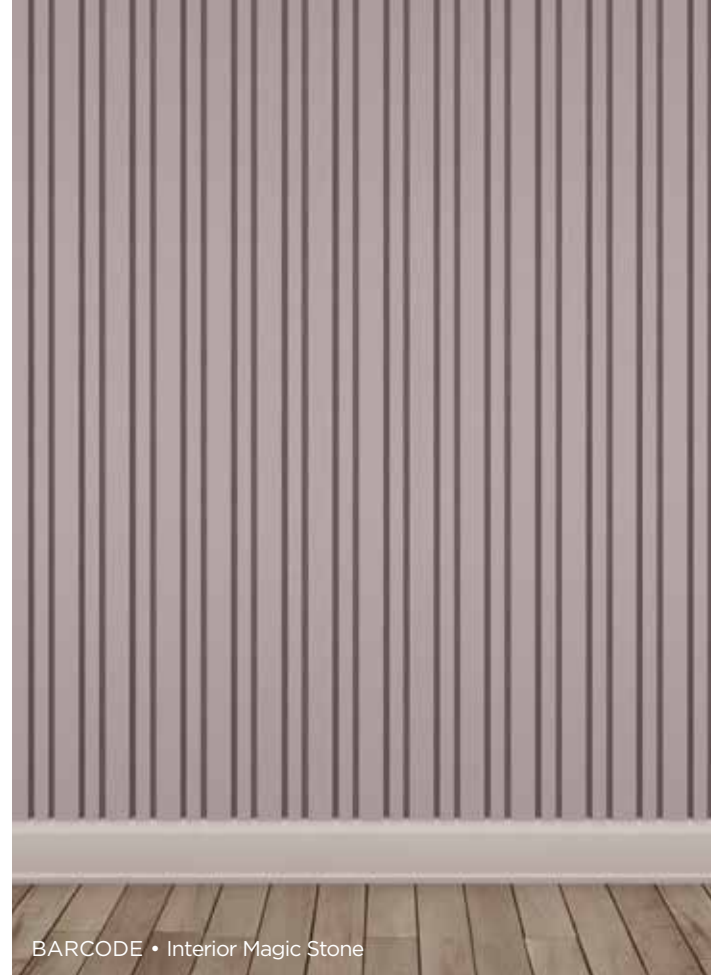

VINYLBOND®
DECORATIVE PANEL SYSTEMS

BARCODE

EXTERIOR & INTERIOR

LINEAR • 125 x 18 MM

BARCODE • Interior Magic Stone

BARCODE is a special design that defies the conventional applications with its two different size surfaces side by side. The discrete surface dimensions are balanced with the same width interspaces to provide an unusual but planar surface. It is quick to be noticed and makes a difference in all areas where it is used with different color options for interior and exterior spaces...

VINYLBOND®
DECORATIVE PANEL SYSTEMS

SOLID

EXTERIOR & INTERIOR

LINEAR • 105 x 18 MM

SOLID • Interior Sand Gray

With its compact appearance, it offers durability and elegance in all aspects to all surfaces where it is applied. This design, which is highly chosen particularly for exterior spaces, adds pleasure to all surfaces applied with its modern color options.

VINYLBOND™ products, which are applied with minimum waste and virtually silent and time saving installation and quite fast to apply, are the number one choice of those who seek perfection on surfaces such as walls or ceilings!

VINYLBOND®
DECORATIVE PANEL SYSTEMS

BEVEL

EXTERIOR & INTERIOR

LINEAR • 100 x 18 MM

BEVEL • Exterior White

BEVEL, which offers a design as modern adaptation of an elegant tradition, is also known as “Weather Boarding” used for many years, particularly on exterior surfaces.

You can enjoy all the elegance and nobility of this method, where the facades are traditionally covered with solid wood paneling as opposed to Vinylbond Vivid colour guarantee , ease of maintenance and No DECAY !

VINYLBOND®

LOG

EXTERIOR & INTERIOR

LINEAR • 125 x 26 MM

LOG • Exterior Cream

LOG is a special classic among the VINYL BOND™ design options, which is integrated with nature as one of the most durable facade coating options in terms of natural conditions... You can use it safely and with pleasure in all climatic conditions thanks to its design options which are inspired by the natural facades of log houses and which cannot be distinguished from natural materials externally.

EXTERIOR & INTERIOR

1

Align the start module exactly to the application surface and fix it by using self-tapping screw.

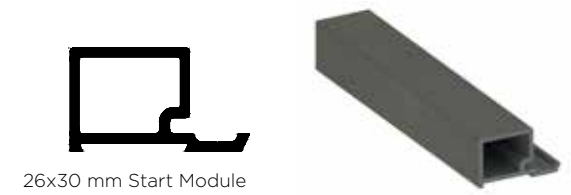

2

After screwing the decorative panels into the grooves one by one, place the next panel and lock the surface to cover the surface.

3

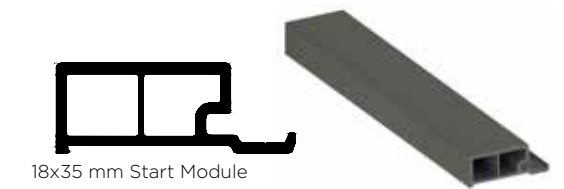

When you reach the end of the surface, install the end module by locking it with screws or preferably adhesive, and complete the process.

STACKING CONDITIONS

- 1 Pallet packages of the panels and components to be kept in stocks should not be opened until the moment of application.
- 2 The stacking floor should be flat and balanced.
- 3 Stacks should always be supported horizontally by using at least 3 supports, and they should never be stacked vertically.
- 4 Panels to be used in interior spaces should not be exposed to direct sunlight or external weather conditions.
- 5 Care should be taken to prevent damages that may occur due to the use of forklifts during loading and unloading.
